

NETWORK RESPONSIBILITY

Family name _____

**Archdiocese of Milwaukee
Network Responsibility Agreement for Students at Christ King School**

Internet Rules:

Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.

The network is provided for students to conduct research and communicate with others. Independent access to network services is provided to students who agree to act in a considerate and responsible manner. Parents' permission is required for minors. Access is a privilege, not a right. Access requires responsibility.

Individual users of the school computer networks are responsible for their behavior and communications over those networks. It is presumed that users will comply with the school/parish standards and will honor the agreements they have signed.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on school servers will always be private.

During school time, teachers of elementary and middle school students will guide the students toward appropriate materials. Outside of school, families bear responsibility for such guidance, as they must also exercise with information sources such as television, telephones, movies, radio and other media.

The following are not permitted:
